

PRODUCT ADVISORY NOTICE

KEEPING YOU INFORMED OF PRODUCT CHANGES

To: All Customers, Sales Representatives and Distributors

Date: April 10, 2015

Subject: Change of Manufacturing Site for Standard 3D Series Displays

This Product Advisory Notice is to alert you that there is a coming process change to all Grayhill standard 3D Series products. Our records show your company has purchased one or more of the affected part numbers in the past. Please forward this notification to the appropriate person(s) in your organization.

Description of Change

We are opening up a new 66,000 ft² state of the art manufacturing facility in nearby McCook, IL (2.7 miles from our current facility) to produce higher level assemblies. The quality systems (including the work instructions, control plans, quality database, etc.) equipment, manufacturing engineers, technicians, supervisors and operators will be the same as are used to build the products today.

For equipment being transferred, our Quality Control group will be performing installation qualification (IQ), operational qualification (OQ) and performance qualification (PQ).

For product being transferred, our Quality Control group will conduct a level 2 PPAP on representative samples of each product series.

Reason for Change: Production capacity expansion as a result of revenue growth.

Effective Date: The change will be effective on July 31, 2015 for the 3D Series CAN-bus Displays.
