

PRODUCT ADVISORY NOTICE

KEEPING YOU INFORMED OF PRODUCT CHANGES

To: Affected Customers

Date: February 19, 2019

Subject: Change of manufacturing location for Select Optical Encoders

This Product Advisory Notice is to alert you that there is a coming change to the manufacturing location of your encoders. ***Please forward this notification to the appropriate person(s) in your organization.***

Description of Change

Grayhill will be transferring the final assembly of several encoders from the Grayhill La Grange, IL facility to the Grayhill Shenzhen China facility. There are no changes to the components used in these encoders. Verification testing of products built in China is being completed. Test reports will be provided upon completion as requested. Grayhill China is a fully approved manufacturing location for the manufacture of these encoders. Grayhill China has built over 10 million encoders since 2007.

Reason for Change

The change of manufacturing location is an effort to avoid further encoder cost increases and also gives Grayhill the flexibility of assembling these encoders in either facility as needed.

Effective Date

Samples will be available, as requested, after 4-1-19.
